Harsh Tank

WEB DEVELOPER

+91 94266 27278 | harshtank0904@gmail.com | [in] | [GitHub]

Objective

Enthusiastic software developer with a strong passion for coding and problem-solving. Seeking an opportunity to apply my skills and dedication to software development in a professional environment. Eager to contribute to team success, while continuously learning and growing in expertise.

Projects

Personal Portfolio

- Crafted with HTML, CSS, and JavaScript, my portfolio website showcases my projects and skills in a visually engaging manner. Designed with responsiveness in mind, it seamlessly adapts to various devices, ensuring a smooth browsing experience for visitors. Explore my work and discover my passion for web development.

Simon Game

- Experience the classic Simon game reimagined with a modern twist! Test your memory and reflexes as you follow the pattern of lights and sounds. Built with HTML, CSS, and JavaScript, this interactive game challenges players of all ages to beat their high score. Engaging visuals and intuitive controls make it a captivating experience for endless fun and entertainment.
